

The ultimate and most respected  
superyacht coating lifecycle solution

Jotun *Care*

## DEDICATED DIRECT CONTACT

At Jotun we take pride in developing lifelong loyal relationships. By way of Jotun *Care*, a dedicated global fleet support function will stand beside you and your professional crew, no matter where you are, throughout the lifecycle of the yachts Jotun coating system. Giving you peace of mind that you have a direct contact within Jotun, offering you support including customized specifications, technical support or simply information on the latest coating technologies. Giving you confidence and trust, and taking the pain out of paint.

## LIFECYCLE INSPECTIONS

We understand critical decisions, like when to consider a paint project and what products to use, are often made from experience, knowledge and reliable information. This is why we actively encourage the Jotun coated fleet, in taking advantage of the periodic lifecycle coating inspections, offered through Jotun *Care*. By request, your Jotun fleet support contact will coordinate a Technical Specialist to attend the yacht and perform the inspection, at an agreed time. Ensuring everyone is objectively informed on the lifecycle performance of Jotun coating systems.

For more information, contact  
[jotuncare@jotun.com](mailto:jotuncare@jotun.com)

## CREW EDUCATION

It is often said the first 7 seconds is when you make the lasting impression, and the luxurious superyacht industry demands the highest of aesthetics at every moment. Through Jotun *Care* we offer regular paint workshops where we share tips on care and maintenance of paint systems, inform on latest coating technologies as well as coordinate practical sessions delivered by our expert Technical Specialists. Empowering everyone on-board in selecting and maintaining coating systems to the highest level, helping to be shipshape and ready for owner and guests.

## SUPERYACHT COATINGS APP

Having actively listened to feedback from crew over the years, we at Jotun recognized there was something missing in the industry in supporting crew with regards to coatings on board, whilst operational. So we developed the Jotun *Care* app, a free to download app which supports Captain and Crew. This is where everyone can easily find, amongst many other things, information on Jotun coatings systems, care & maintenance guidance and consumption calculation, all in one easy to find location, saving valuable time.

\*Available on iPad Only
